## FOR KIDS

.....

1. 9 Easter bunnies want to race each other. How many races do the bunnies have to run so that each bunny has reached the finish line faster than all the others at one time?

.....

2. Early in the morning the Easter Bunny hobbled off to hide 46 Easter eggs. He hid 10 with the Schmidt family, half as many as with the Schmidts, with old Peter Fox, who lived alone, and little Elisabeth, and 7 with the Lewandowski family. He hid another 10 with Gabi and Felix Furchtlos. How many Easter eggs does he have left to hide for you in your garden?

.....

3. In spring, Julia pokes five holes in the ground to plant four seeds. She plants a seed in the second hole. Then a seed just to the right of that seed. Next she plants a seed in the 5th hole, and finally she plants a seed four holes to the left of it. Which hole did not receive a seed?

.....

4. Jenny finds 4 Easter eggs. Alex finds 3 more Easter eggs than Jenny. Matti, on the other hand, has found 2 fewer Easter eggs than Jenny. Anika finds 6 more Easter eggs than Matti. How many Easter eggs have they all found together?

.....

5. Racer Rabbit Rudi Rasehase wants to run three laps in three minutes each at the big Easter race. He can do that if he runs one lap at a pace of 30 km/h. After the start, however, he only manages the first lap at 10km/h. How fast does he have to run the second and third laps to complete all three laps within three minutes?
